

## SCHOONER GOES ON THE ROCKS AT JERRY'S POINT

British Schooner Evolution  
Will Probably Be a Total  
Loss.

The British schooner Evolution, which brought a cargo of box boards to this port for the McElwain Shoe Co., in attempting to beat out of the harbor shortly before 11 o'clock this morning, was wrecked and went on the rocks at Jerry's Point, New Castle.

At the time of the accident a strong southeast breeze prevailed, as well as a choppy sea. The tide was at about half ebb and it is believed that the schooner, which is an old affair, will be a total loss. As soon as the predicament of the schooner was seen the crew of the Portsmouth Harbor life saving station and the tug M. Mitchell Davis went to her assistance. The tug made several unsuccessful attempts to pull the schooner off the rocks, but in each case parried a hawser.

The schooner was bound to Liverpool, N. S., her home port. She carries a crew of five men and at last reports her crew were still standing by her.

## FOUR INDICTED FOR SMUGGLING

Bills are Found Against the Shevlins, Kate Brennan and Margaret Mulhall

Boston, Mass., April 16.—The investigation by the government into the alleged customs smuggling frauds bore fruit yesterday in the indictment of four persons by a federal grand jury, that reported to Judge Dodge.

Three of the indictments charge smuggling and one conspiracy to defraud the government.

Terrence L. Shevlin of Somerville, former deputy collector of the port of Boston; his wife, Mrs. Annie W. Shevlin, and two New York dressmakers, Kate A. Brennan and Margaret Mulhall, are the persons indicted. The Shevlins and Miss Brennan are charged with smuggling and conspiracy, while Margaret Mulhall is charged only with smuggling.

The conspiracy indictment recovers that on March 17, 1913, the date on which the Carpathia docked in Boston, the Shevlins and Miss Brennan conspired to defraud the government of duties on gowns, dresses, costumes and other wearing apparel of foreign manufacture, contained in a trunk marked M. Z. B.

### The Ellison Trunk

This trunk is the one that has come to be known as the Ellison trunk, which it is charged was passed through the customs lines without examination. Shevlin is charged with having stuck a baggage label on the trunk, which was being imported from France by Miss Brennan. The indictment recites that Mrs. Shevlin was on the dock the day of the Carpathia's arrival.

Pure alive all at Cater's Market.

## RUMORS OF RAILROAD CHANGES

Stated That New Haven Officials Now Connected With B. & M. May Return to Original Road.

Seldom a day passes that one doesn't hear a rumor of some kind concerning the Boston & Maine, or the New York New Haven & Hartford railroad. If the latest story going the rounds has any foundation, the railroad men say the change may come with the next summer schedule of train service. The report has it that in the future no more New Haven men will be assigned to the Boston & Maine, and that Vice President Horn and General Mgr. Pollock will later be relieved of their duties on the Boston & Maine and go back to the New Haven. In connection with this change it is said that Mr. Horne will be succeeded by Mr. Polson, the present superintendent of the Connecticut and Passumpsic division and president of the St. Johnsbury and Lake Champlain railroad, and that William F. Ray, now general superintendent of the Boston & Maine will take the place of Mr. Polson. The story also has it that G. L. R. French, a former roadmaster of the Boston & Maine, now superintendent of the Rutland railroad will come back to the Boston & Maine as superintendent of the Portland division to succeed Mr. McMollin, who will also return to the New Haven system.

### ARE STRANDED.

Out of Town Game Swamped High School Baseball Association.

The following is the letter sent by Principal Hobbs to the manager of the Newburyport High school baseball team, cancelling the game as stated in Thursday's Herald:

Mr. C. D. Montgomery—After many days of debating and anxiety over the financial situation of our baseball team I have decided that it is only fair to you to ask you to cancel the game which was scheduled for Friday. The board of public works has forbidden us to sell tickets of admission to our games, since the playgrounds are open, unfenced and public property. This source of revenue which has run our teams mostly for years is now cut off and we are stranded. I regret exceedingly that I must write this to you, but of the two evils of cancelling the game or of being unable to pay your expenses this is the less. Since the game is a Thursday game, and since you have gone to no expense, I am sure that no great harm will be done. Our out-of-town game last Saturday swamped us so completely that I fear for our regular league game with Newburyport on Saturday.

Very truly yours,  
J. W. HOBBS, Manager.

### HE WANTS A LIVE PAPER.

Boston Attorney Wants The Herald Because It Is a Booster.

The following letter from a citizen of Boston shows that the work The Herald is doing is even appreciated outside of Portsmouth. This is a sample of letter that daily comes to the office:

Charles Cogswell Smith  
Counselor-at-Law  
Boston, April 14, 1913.

Editor The Herald:  
Dear Sir—You may recall that some years ago I subscribed for your weekly paper. To indicate my continued appreciation of your efforts in behalf of Portsmouth, I wish you would change my subscription to one for the Evening Herald. You may mail it, for the present, and until further notice to my office address as follows: Charles C. Smith, 209 Old South Building, Boston, Mass.

I may say that I am now undertaking to dispose of my law business in Boston, with the intention of taking up an all-the-year-round residence in Portsmouth, which, in fact, has been the only legal residence I have claimed since 1905, and my family, with me, have spent all the time there possible in view of the distance from my office in Boston.

Respectfully yours,  
CHARLES COGSWELL SMITH.

### KITTERY WOMAN WRITES SONG.

## "KID CARTER" CONFESSES

Says He Killed Mildred Donovan and Boasts of Many Other Murders In the Far West

Boston, April 17.—"I killed Mildred Donovan. That was only one of many murders that I committed. That is all I have to say. What do you think of that?"

This confession was uttered from the dock in the superior criminal court today by William B. Jennings, known in the prize ring as Young Kid Carter, just before he had been found guilty of killing William H.

MacPherson, a bartender on New Year's Day, and had been sentenced to imprisonment for life.

The many murders which Jennings claims to have committed, were in the western part of the country, according to a subsequent statement by him. He added:

"I can safely say that no man was

## HOME OF DANIEL WEBSTER WILL BE PRESERVED

Society to Set Apart Birthplace of Statesman as Shrine.

Daniel Webster's birthplace in New Hampshire is to be set apart as a historic shrine by exercises to be held early in September at a date to suit the convenience of President Wilson, who will motor over from Cornish. The Massachusetts committee, co-operating with that of other states in this enterprise, met at the Crystal room of the Parker house yesterday to effect plans for the money-raising campaign.

Charles K. Darling presided. Lewis Armistead, a great grandson of Daniel Webster, was made chief executive officer. Among the men who have consented to serve on this committee, although unable to be present yesterday, were Chief Justice Aiken, Col. Melvin O. Adams, and ex-Congressman Samuel L. Powers. Other members of the committee who took a prominent part in yesterday's deliberations were Naval Officer James O. Lyford, Ralph S.

## "KID CARTER" CONFESSES

(Continued from Page One.)

hanged for any of the crimes that I committed."

In boasting of the success which he had in evading punishments for his deeds the prisoner said:

"It was at late as 1910 that I beat the cops at their own game in Jackson, Mich. My pal, Bert Smith was found guilty of murder in the second degree. But I got out of it. Leave it to me."

Mrs. Mildred Donovan of Revere, whom Jennings confessed in his statement to a pal who would do anything for me, met her death on New Year's eve. Jennings said today that he invited her for a walk near Holy Cross cemetery, in the Linden section of Malden, and strangled her. Her body was found there the next day.

"I killed her because I was afraid she would squeal about some of my crimes," Jennings said.

MacPherson was shot by Jennings during a bar room brawl in a South End saloon in which the former was a contender. This happened on New Year's afternoon. MacPherson died a few days later, after saying he knew of no reason for the shooting. Jennings gave no reason in his statement.

"I just had murder in my heart," he said.

Jennings' declaration in the court room was not made until after sentence had been pronounced, although he was given the usual opportunity to speak. Just as the judge was about to order the court's dismissal of the prisoner arose in the dock and said:

"I want to say something."

He paid no attention to the judge's question, "why did you not say it before I pronounced sentence?"

Jennings then thanked the court, his counsel, and Sheriff Quinn of the Charlestown jail for the kindness he had shown him and proceeded calmly to the confession above given. He sat down after the brief statement. He looked around apparently to see how his declaration had been taken by those in the room, and a moment later was led out by the court officers to be removed to the state prison.

In the detention room he talked to reporters.

"Gentlemen I have a statement I want to give you," was the greeting. "This is the statement I wanted to give to the court. I killed Mildred Donovan. I confess this to save my innocent persons. She knew all about an Everett affair when my partner and I struck an old man named Hill and took his watch. The police were looking for us and her father knew about it and was trying to make her tell. I killed her because I was afraid she would squeal."

"Mildred and I were pals. She would do anything for me, but I thought her father would make her give me away. The night I killed her rode to the end of the car line with her. We took a nice long walk and then we talked matters over and had too much trouble in getting away from the police before, and I wasn't taking any chances again. From our conversation I decided that she was going to turn against me. Then my partner came into my heart."

"She told me, I choked her for fifteen minutes, pressing both my thumbs into her mouth. She didn't struggle very hard. But see this broken finger nail. She hit that. It takes about four months to heal, and I have been to jail a little over three months now. That's the only mark I bear from the struggle with her. Mildred died at exactly 7.55 o'clock. I knew that because the bells in the town clock five minutes after she stopped squealing."

"After her death I was getting ready to make my getaway. See this railroad. I bought it the next morning for a disguise. See this blood here and here and here. I had this spot on when I shot MacPherson. This is MacPherson's blood. I was just about ready to get out of town when I shot him. But there was murder in my heart."

Jennings said he was resigned to his fate.

"I am willing to take anything they give me, even the chair. I have played my cards in luck until today. Now I played the last one. I never did a day's work in my life. I was always out to get the money without work, and I would let no one stand in the way. Lots of times I have beaten the cops."

"It was only in 1910 that I beat them at their own game in Jackson, Mich. My partner Bert Smith, was found guilty of murder in the second degree, but I got out of it. I was mixed up in lots of other murders but they were in the western part of the country, where they have no electric chair and I can safely say that no man was hanged for any of the crimes I committed."

"I place the blame for all my troubles with the police. When I was a little kid they locked me up without any reason, put me in a cell and beat me. They did it many times. If I had been used all right when I was young, I would be all right today. That's my story, boys."

Following Jennings' confession late today the authorities of Suffolk and

## STOMACH GONE BAD, SOUR, GASSY, UPSET?

When "Pape's Diapepsin" Gets in  
Stomach all Indigestion Goes

"Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness, or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache."

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest, and most certain remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear; they know now that it is needless to have a bad stomach.

Please for your sake get a large fifty cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it, without dread of rebellion in the stomach.

Diapepsin belongs in your home anyway. It should be kept handy in case one of the family eat something which doesn't agree with them or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night it is there to give the quickest, surest relief known.

Middlesex counties renewed the investigations into Mr. Donovan's death. Some officers were detailed to look over the records of cases in which Jennings' name had figured on other years. It was thought possible that others of the many murders, to which he had confessed had occurred in the vicinity of this city where he had lived and fought, and plundered for many years.

The former prize fighter is likely to be placed on trial again for his life, with the murder of Mrs. Donovan as the issue. District Attorney Higgins of Middlesex county, in whose jurisdiction the Donovan murder occurred, tonight said:

"Jennings' confession is not news to us. The request into the death of Mrs. Donovan showed that Jennings was responsible for her end. We have been waiting for a statement from him. No what it has come we need only finish our investigation."

Mr. Higgins said that announcement of the result of the request had been kept secret up to this time, in order that the proceedings against Jennings in the Suffolk county courts might not be prejudiced.

Following the murder of MacPherson, which arose as to Jennings' sanity. An alienist was appointed by the district attorney and sent to check all to examine the prisoner. Jennings refused to recognize the expert could not answer his questions and asked his guards to have the doctor taken away. The alienist made no report to court.

District Attorney Higgins said late tonight that he had a warrant for the arrest of Jennings on the charge of premeditated murder for the killing of Mrs. Donovan.

When the fact was communicated to F. C. Menard of Revere, father of the murdered woman, he exclaimed: "That's right. Put him in the chair where he belongs. He may try to sham insanity, but I know that he is sane."

Menard said that he felt certain that Jennings had decided upon the murder of Mrs. Donovan, when he ate dinner with the Menard family at Revere, New Year's eve.

"His actions at the table were strange, very strange," Menard said. "I am sure he was planning then how to kill my daughter."

## DRYDEN HAS SIGNED WITH YOUSOUF

Will Dryden received a telegram on Thursday evening from young Yousouf, the Turkish light heavy weight champion stating that he would be here for a match with Dryden on Tuesday evening.

Yousouf is a real Turk and he will be here on Monday, and will wear the Turkish costume while in training here. He weighs 150 pounds and he has been winning all his matches and against the best men in the business. He is a rugged fellow, who knows the same well and who mixes it fast all of the time.

He is confident that he will be able to get away with Dryden, although he admits that the local man has disposed of some clever men.

## LITTLE BOY HAS NARROW ESCAPE

Antonio Lucini, the six year old son of Gustoni Lucini, of Deer street, was knocked over and run down by a heavy truck team of the Kittery Express Co. on Thursday noon.

The little fellow ran out into the street and fell beneath the wheels, one passing over his arm and striking his forehead. The little fellow was unconscious when found, and at first was thought to be killed. He came too after a time and it was necessary to take several stitches to close the wound in his forehead.

The driver of the express team, named Eaton, later came to the police station and disclaimed any knowledge of the accident.

ROAD TO SUMMER CAPITALLegislature Take Quick Action On  
Governor's Request--Short  
Session.

Concord, April 17.—A bare quorum was present at this morning's session of the house, and the business in order was put through in quiet time and for the most part without debate. Among the most important measures was the passage of a resolution following the reading of a message of recommendation by Governor Peizer, making an appropriation for the repair of roads leading to the summer capital in Cornish.

Speaker Britton called the house to order at 10:20 o'clock. The senate came in for prayer by Chaplain Welch. Leaves of absence were granted to Messrs. Arnold, of Warren, French Buxton and Wingate of Nashua, Wright of Washington, Tolles of

Nashua, Gilman of Bristol, Rutledge of Portsmouth, Grant of Rollinsford, Avery of Londonderry, Hubbard of Bath, Duncan of Alton, Perkins of Nottingham, Mallico of Milford, Powell of Nashua, Bugbee of Franklin, Richardson of Alstead, Cater of Portsmouth, Cate of Nashua, Burns of Monroe and Sinclair of Concord.

Mr. Cornery of Northumberland gave notice this morning that he would on some subsequent date move to reconsider the vote by which the majority report of inexpedient on House Bill 550 was adopted. The bill is the measure relating to the election by the people of the boards of tax assessors, public works and police commission of the city of Manchester.

The bill, which provides that the members of the Manchester common council shall be paid a yearly salary of \$190 came back from the senate with an amendment providing that one act shall take effect on Jan. 1, 1914.

On motion of Mr. Pillsbury of Manchester, the house voted to concur in the amendment.

Among the bills reported this morning was one from the committee on fisheries and game, providing for the creation of the office of state ornithologist, whose duties shall be to study the habits of the birds of the state in relation to food and destruction of harmful insects. A part of the work of that official will be along the lines of securing uniform laws in the state looking to the preservation of the song and insectivorous birds. The bill fixes the salary at \$500, with necessary expenses.

A message from Governor Peizer was read recommending that an appropriation of \$12,000 for the repair of a stretch of road three miles long in Cornish, leading from the Connecticut river to the summer capital at Winston Churchill's Harborside house, which has been leased by President Wilson.

On motion of Mr. O'Neill of Walpole, the rules were suspended and the joint resolution was received at that time.

On motion of Mr. Elwell, unanimous consent was given Mr. O'Neill to introduce the joint resolution, after which the resolution was read three times by its title and passed.

On motion of Mr. Ahern of Concord business in order for 3 o'clock was made in order and the following bills were read a third time and passed:

**Read and Passed.**  
An act to amend an amendment to an act, chapter 145, session laws of 1909, entitled "An act for the promotion of agriculture."

An act exempting from taxation municipal indebtedness.

An act to provide for the blind of the state of New Hampshire.

An act in amendment of chapter 22 of the public statutes relating to councillor districts.

House joint resolution appropriating money for new buildings at the Keene Normal school.

House joint resolution appropriating money for the New Hampshire College of Agriculture and the Mechanical Arts for the erection of a new building.

House joint resolution for the repair of Sugarloaf road in the town of Alexandria.

NAVY YARD WORKMEN AT  
CHARLESTOWN MAY STRIKE

Boston, April 17.—Sentiment in favor of a strike of the members of the A. F. of L. organizations employed at the Charlestown navy yard was expressed by delegates to the meeting of the Charlestown navy yard Metal Trades' Department last night.

Some of the local unions have already sent requests to their international officers to come to Boston, and the meeting last night sent a similar request to James O'Connell of Washington, National president of the A. F. of L. Metal Trades' Department.

The trouble is over what the men claim to be a new effort to extend the so-called Taylor system at the navy yard by the introduction of a new job-card system, which purports to take the place of the stop watch and other objectionable features of the old plan, but which the men assert amounts to about the same thing.

The meeting, through its press committee, issued the following statement:

"The same methods now being introduced at the Charlestown navy yard were adopted at the Watertown Arsenal in the gradual introduction of the so-called Taylor system there. We know the result of the experiment at Watertown and we do not propose to tamely submit to this industrial curse without raising a protest."

"Saturday is Patriots' Day, the day which stands for a principle. The warning that the Taylor system is menacing us should be sufficient incentive to arouse our citizens against this modern destroyer of liberty."

Speeches were made by delegates declaring that the Boston navy yard was seemingly the only place where

the Washington "desk-chair admirals" and faddists were endeavoring to introduce objectionable systems and experiments, and action similar to that taken at the Norfolk navy yard some months ago, when the workmen successfully struck against a system said to be similar to that now being established at Charlestown was discussed.

Protests stopped similar schemes under the Taft Administration, it was declared, and surprise was expressed that the advocates of the system had succeeded in having it approved by the present Administration.

Under the new system, it was asserted, the workmen will have considerable broken time. No work, even shop or ship machine repair work can be done without a card and order from the planning department.

One case, was cited as an example. There were small jobs on both the forward and after ends of the officers' cabins of a ship. Both jobs were identical and within about 30 feet of each other and the time card or card called for four hours work on each job.

The card and job order for the task on the forward portion was given out one day and the work completed that morning. The card for the after job was in the rack at the same time, but it was dated for three days after. It was claimed that as a result, the men who did the forward job had to pick up their tools, and, as no other job was available for him on the day card rack and under the new rule he could not make some needed repairs to a machine in the shop, he was laid off for the afternoon without pay.

House joint resolution in favor of John Fox Weiss for damages on a highway in Franconia.

House joint resolution in favor of Henry H. Clark of Franconia for services as trustee of the Normal school.

House joint resolution relating to boundary commissioners.

House joint resolution authorizing the attorney general to collect by suit or otherwise thirty-one thousand dollar bonds of the state of South Carolina now held by the state of New Hampshire, a part of the Thompson bequest to the state college.

An act in amendment of chapter 22 of the public statute, relating to councillor districts.

There will be a hearing in the general committee room of the State House next Tuesday evening on Governor Peizer's "retrenchment bills."

Mr. Baker of Exeter opposed the passage of the bill providing for erection of a statue to Franklin Pierce, on the ground of economy, saying that the state had already appropriated large sums. That a mountain had already been named for him, which was a more lasting monument than could be erected in the state house yard, which, as said was already over crowded.

Mr. Baker suggested that a new building at the state college be named for him. That Franklin Pierce had been given sufficient honor, and hoped that in view of the opposition of some of the Grand Army men the bill would be indefinitely postponed.

On motion of Mr. Cutler of Jaffrey the bill was made a special order for next Tuesday.

Mr. Hobbs of Wolfeboro opposed the bill appropriating \$40,000 for the use of Dartmouth college, on the ground that there were appropriations of over \$600,000, and while he did not wish to do anything opposed to education, but the bill provided for a gift to a private corporation which was from time to time receiving gifts from other sources, and he believed

that the matter should be given further consideration. On motion of Mr. Ahern of Concord the resolution was made a special order for Wednesday.

The bill permitting the water commissioners of Manchester to pension its employees for disabilities from injuries and for old age and length of service.

### The Automobile Menace.

Some few weeks ago The Herald suggested that a movement should be started in the public schools of every city as a means of lessening auto accidents. Here is what the Boston Transcript notes on the subject:

"There was recently mailed to superintendents of schools in Massachusetts by the Automobile Legal Association a request for suggestions as to the best way to decrease the large number of automobile accidents to school children. The replies that appeal to this organization as most practical and most representative of general opinion suggest the erection of appropriate signs two or three hundred feet on each side of the school buildings, and the distribution of eight or ten short rules on light cardboard each week until memorized. The sign should have the word 'School' in large white letters on a red background to indicate danger and the need of caution. It is proposed to offer prizes to all children in the grammar school grades for the best set of rules, covering such points as 'What should a child do before crossing a street?' 'In playing in the street what should a child keep in mind?' and so forth. The value of the plan lies largely in bringing the minds of the children themselves to bear upon the problem of their own safety. Rules will not do much good unless their interest and co-operation can be enlisted. This effort to reduce the dangers incident to modern street conditions seems to have been initiated in Washington, but the movement is rapidly spreading to other cities."

### The Saving Habit.

The savings banks do not represent the entire amount laid aside for future use. Endowment insurance, co-operative banks and the benefit organizations that are popular since some of the evils that they fostered in the early days of their history have been removed, represent immense amounts, which stand as a bulwark between their owners and dreaded poverty. The greatest danger to which these small capitalists are subject is the temptation presented to them to withdraw their little hoards and invest them at the suggestion of dishonest promoters. The small capital which a wage earner has saved out of his wages or salary is safer in the hands of the savings bank directors than anywhere else, and those who accept that view and adhere to it seldom have cause for regret. —Lynn Item.

### Should Receive More Attention.

Don't forget to plant a tree on Saturday, May 3, Arbor Day. In some countries there are what is known as schools of forestry. They furnish a course of instruction that not only includes the technical and botanical study of forests, but embraces a complete course in natural science and tree-culture. There is little hope of such a beneficial exercise of public spirit in this country. But the subject should receive more attention in our public schools. And as for Arbor Day itself, let every citizen enter into the spirit cordially and heartily. It appeals to every race and every creed. Let every clergyman, every business man and every professional man do something to make the observance befitting. There is need of it.

### Only a Few Requirements.

Wanted, an editor who can read, write and argue politics, and at the same time be religious, funny, scientific and historical at will, write to please everybody, know everything without asking or being told, always having something good to say about everybody else, live on wind and make more money than enemies. For such a man a good opening will be made (in the graveyard).

### WAR QUESTION RAISED

Hon. W. E. Chandler, former Secretary of the navy, recently sent a communication to the Washington Post, on the question of Suffrage for Women. The letter is as follows:

Editor of Post—I have always been a supporter of woman suffrage and so voted in the New Hampshire Constitutional Convention in 1902 and at the polls in 1903 when it was rejected by the people. But I was very much impressed by an argument against suffrage in an argument stated in an appeal in favor of the suffrage by T. Wentworth Higginson, which was, that as a doubtful question of going to war might arise to be solved by a nation, the women, as they could not go and fight the battles, should not be allowed to participate in deciding whether war should take place.

Thinking over this question, I would like to know what the women now think of the merits of the argument. Men I think, are slower in making up their minds than women. They

act less from impulse and as they are to become the soldiers and expose their lives to destruction if the nation goes to war, should not they alone decide the question? It seems to me that women might be led to voting for war through impulse, by reason of anger at the action of other nations in connection with events which arouse indignation. On the other hand as it is not also likely that women would vote against war solely because it might involve the lives of their sons and their fathers and brothers?

It now seems that in the future there is not to be a representative government, but a popular government, in which all important questions are to be decided by the people in primaries or at the polls, with initiative referendum and recall. Above all, therefore, questions whether we shall have peace or war to be decided by the majority in a popular vote. Is there not great danger that a war will take place brought on by the excited votes of that half of the population which can never appear on the

## First Anniversary of Titanic Disaster Marked by Dedication of Lighthouse Tower Memorial to Heroes.

Photo copyright, 1913, by American Press Association.

Exactly a year from the day the steamship Titanic sank on her maiden voyage, with the loss of more than a thousand lives, the Titanic memorial lighthouse tower was dedicated in New York city with impressive ceremonies. The tower stands on the roof of the new twelve story Seamen's Institute, to the fund for which the late J. P. Morgan contributed \$100,000. On a corner of the building near the street is an oval bronze tablet with the following inscription: "This lighthouse tower is a memorial to the passengers, officers and crew of the steamship Titanic who died as heroes when that vessel sank after collision with an iceberg, latitude 41 degrees 40 minutes north, longitude 50 degrees 14 minutes west, April 15, 1912." The illustration here shows the memorial tower and the services by which it was dedicated. The tower is surmounted by a staff, from the top of which a time ball will drop every day at noon, thus determining the time for scores of vessels. From the tower will shine a green light, visible as far away as Sandy Hook. It is the only green light on the coast.

battled carrying arms, killing their enemies and exposing their own persons to slaughter? Or is there not a different danger—that the nation will in cowardly fashion vote not to go to war when the greatness and prosperity and honor of the nation require it to go to war?

It is possible that I have not stated the whole question. Do the suffragettes contemplate when they obtain the right which they are now demanding too often by methods which constitute arguments against their demand, accepting willingly the burden in connection with suffrage of being enlisted in the armies and marching in the militia of the nation and to take up arms equally with men when the struggles and horrors of deadly war are to be encountered? Of course they will not be content to be only private soldiers. Are we to have West Point and Naval Academy female seminaries and a nation of Amazons?

WILLIAM E. CHANDLER.

### ANOTHER MAN WANTS TO MEET DRYDEN.

To the People of Portsmouth and the Wrestling Fans of New England—I wish to say I have a man that weighs in at 158 pounds that I will match against Billy Dryden under the following conditions: My man, Wilfred Barrett, will weigh at 158 or less, Dryden to come in at any weight; Barrett to throw Dryden twice in sixty minutes; winner take all gate money. I hope Dryden will accept this challenge and give the people a chance to see some real wrestling.

### POPULAR ESTEEM

If from the average man you wish to win respect or admiration, There is a way that never fails, no matter what your occupation; You may engage in deeds that look a trifle shady or suspicious; You may get on by hook or crook and cling to habits that are vicious; But you may cause the average man to humbly pay you his addresses. By having just a little more than he possesses.

You may not have the taste that speaks experience and education; It may be that you have not gained a very lofty station; You may have little grace or wit and claim the coarsest boor's ambition; You may be totally unfit for any prominent position; But by your neighbor you can be applauded, envied and admired. If you have just a little more than he's acquired.

If Brown has more than Foster, Brown stands high in Foster's estimation. And Foster though his merit shines, from Brown gets small consideration. For men have but one standard which they use in measuring each other. He who has managed to get rich is still awed by his richer brother. So if you wish to be esteemed, put all things else aside and labor To be a little richer than your richest neighbor.

S. E. KISSEL.

### RAILROAD NOTES

The storage house for the Portsmouth Coal Co., is being built in the local freight yard.

The Reading Railway Co., has put its yardmen on five days work instead of seven. This affects many men in the big St. Clair yards where most of the anthracite product of the Reading Coal & Iron Co., is weighed. If the reduced price of coal next month causes a slump in the trade, the yardmen will again be put on full time.

The Boston & Maine passenger department has sent out its traveling agents to make the necessary arrangements for the G. A. R., in connection with the trip to Gettysburg. Harold Johnson, baggage master on the Dover branch is confined to his home at Milton by illness.

### ELIOT.

Barlett and Louis A. Coolidge.

Senator Gallinger and ex-Senator Chandler are in charge of the national organization. They desire, so far as Massachusetts is concerned, to afford an opportunity for students of the great career of Webster and admirers of his statesmanship, to be enrolled among the benefactors. This Boston committee has accordingly been instructed to prepare a list of such persons and to that carefully selected group letters will in a few weeks be directed.

Not only is the purchase of the property contemplated, but the improvement of the highway leading to it. This will make an added attraction to summer sojourners of the White Mountain state, as well as a shrine for its own patriotic citizens.

# PORTSMOUTH LODGE OF ELKS HAVE A BIG NIGHT

## Bills Lose Bowling Tournament and are Hosts to the Bucks--Parade--Banquet--Speakers--Presentation of Loving Cups.

"The first big night of the Silver Year," was the quotation at the top of the program of last night's Elks time and it was aptly placed, for it certainly was a big night. In fact one of the best ever held by Portsmouth Lodge, No. 97, B. P. O. Elks, and that is going some. With the record of years of big events back of them it required careful planning to be able

to make an impression and this the committee who had last night's affair in hand certainly did.

To begin with the Bucks won, and in most decisive fashion, so that the Bills were the real hosts of last evening's lavish entertainment and nobody enjoyed it any more than the Bucks for "To the Victors belong the Spoils" was the slogan.

It might be said here that the big night was the termination of the annual Elks bowling tournament in which all of the members were divided with two teams, under the heads of Buck and Bills. The tournament has been going on for the last three months, and the matches have been very interesting and have been very closely followed by the entire membership. The Bills in the beginning had the lead, but they gradually gave way to the Bucks and for the past month they have held the lead and although the Bills made a game effort there was nothing to it and the Bucks finished with a fine healthy lead.

The concluding matches were rolled Thursday and in the evening there were the special matches, between Mayor Badger and his brother Charles A.

The members assembled at the home and at 8:30 headed by Exalted Ruler Raphael L. Costello, and P. E. R. Augustine Dondoro, and a band marched to Freeman's hall where the banquet was served.

There were 250 members in line and they marched through rows of red and green fire, along Pleasant and Congress streets.

At the hall plates had been laid for 250 and very nearly that number were present. At the head table which extended across the hall were seated the toast master, William T. Entwistle, Exalted Ruler Raphael L. Costello, Mayor D. W. Badger, the speakers, Bro. William A. Murphy of Boston, Bro. Joseph Santovasso, M. D., of the Boston Lodge, P. E. R. F. W. Hartford, P. E. R. William H. Moran, the officers of the lodge and Captain James W. Scott of the Bucks and Captain Thomas F. Mehan of the Bills. An orchestra furnished music during the banquet.

The banquet was served by Howe and Vandy and the menu was:

Crab Cakes  
Crisp Celery  
Roast Turkey  
Cranberry Sauce  
Baked Sugar Cured Ham  
Escalloped Oysters  
Hot Mashed Potatoes  
Parker House Rolls

Baked Custard Pudding  
Harlequin Ice Cream  
Assorted Cake  
American Cheese  
Sultana  
Cigars

When cigars were reached Bro. William T. Entwistle took command and in a brief introductory speech called upon Mayor Daniel W. Badger who spoke on "The Relation of a Secret Fraternity to the City, the State and Nation."

Dr. Joseph Santovasso of the Boston Lodge of Elks, was the next speaker and his subject was "The B. P. O. E. The Greatest of Fraternities." He is an able speaker and he was closely followed.

Editor F. W. Hartford spoke at some length on "The Elks and the Navy, Its Relation to the Upbuilding of this Nation."

Bro. William A. Murphy, who delivered the memorial address last December was the next speaker. Mr. Murphy has the reputation of being one of the best orators of the Boston Lodge of Elks and his reputation was fully sustained by his address here last evening. He took a general subject of the Elks and handled it in masterly style. The closing speaker was Bro. William H. Moran and it was on "Heraldism of the Bucks and Bills."

One of the pleasing features of the banquet was the presentation by Toastmaster William T. Entwistle of a handsome solid silver loving cup to Mr. William A. Murphy in recognition of his kind services to the Portsmouth Lodge, and to District Deputy Grand Exalted Ruler Ernest L. Cheney of the Portsmouth Lodge.

Following the banquet the greater number of the members returned to the Elks Home on Pleasant street, where the battles were fought all over again and the Bills consorted with the fact that there was another year coming.

At the home there was music, both vocal and instrumental, and it was a late hour before the big night was definitely declared over.

The officers of the lodge are: Exalted Ruler, Raphael L. Costello; Esteemed Leading Knight, Sidney J. Trueman; Esteemed Loyal Knight, Charles S. Long.

Esteemed Lecturing Knight, Reginald C. Jones; Secretary, Ernest L. Cheney; Treasurer, Dr. Martin A. Higgins; Tyler, Henry Odis Batten; Esquire, James A. McCarthy; Chaplain, James P. Sherry; Inner Guard, Clifford T. Pike; Organist, Horace Lamos Rowe; Trustees, William L. Conlon, August Dondoro, John T. Lambert.

### IN THE CASE

Rose Pastor Phelps Stokes at a dinner in New York, urged that shop attendants of all sorts be treated with more consideration. Mrs. Phelps Stokes gave a number of examples of inconsiderate treatment of shop attendants—some grave some gay.

"A laughable example," she said, "had a railroad station for its scene. A woman, leading a little boy, said to the ticket agent:

"What is the fare to Portsmouth?" "Thirty cents," the agent answered. "I've told you that eight times now," he added mildly.

"I know you have," the woman answered, smiling; "but little Willie likes to see you come to the window. He says it reminds him of the Zoo." — New York Tribune.

# CROQUETTES

Sweet and Nutritious With COTTOLENE to take Out the "Indigestion"

Croquettes are likely to be greasy—if made with lard. Cottolene croquettes are never greasy. Cottolene heats to about 100 degrees higher than butter or lard, without burning, and forms a crisp crust which prevents the absorption of fat.

## Cottolene

is more healthful and economical than lard. It costs no more than lard. You use one-third less of Cottolene than of either butter or lard.

The use of Cottolene is indispensable to good cooking, good health and true economy. TRY THIS RECIPE:

### CROQUETTES

Chop fine any kind of cooked meat or fish. Moisten light meats with thick white sauce, equal amount, and dark meats with tomato or brown sauce made quite thick. Season with salt and pepper and onion juice if liked. When very cold, shape mixture into balls or cones; roll first in sifted bread crumbs, then beaten egg diluted with one tablespoon milk, then crumb again. Fry one minute in deep Cottolene. Drain on paper, and be sure the fat is hot for each frying. Serve plain or with sauce like that in the mixture, only thinner.

Made only by THE N. K. FAIRBANK COMPANY

## PRESIDENT WILSON MAKES APPOINTMENTS

Washington, April 17.—Henry Clay Steckinridge of Lexington, Ky., has been nominated for Assistant Secretary of War. President Wilson consulted Senators James and Bradley to day.

Jerry B. Sullivan, a Democratic leader in Iowa, has been nominated for the Board of United States General Appraisers at New York. William W. Roper of Philadelphia, formerly a Princeton football coach, and a Democrat, has been nominated for appraiser of customs at Philadelphia.

In these latter cases the President consulted with the Republican Senators from the states where the appointments reside.

These nominations were sent by President Wilson to the Senate today. Other nominations were:

Auditor for the Interior Department Robert W. Weddley of Virginia. Director of the Census, William J. Harris of Georgia. Recorder of the General Land Office Loring Q. C. Lamar.

Assistant Attorney General of the United States before the Court of Appeals, Samuel Houston Thompson Jr., of Denver, Colo.

President Wilson's plan of consulting Republican Senators as well as their Democratic colleagues about prospective appointments among their constituents does not meet with the approval of some of the Republicans.

Senator Bradley told the President today that while he had no personal objection to the men whom the President had discussed with him he wanted to make it clear that he accepted no political responsibilities for the appointments. The President is reported to have told Senator Bradley that his purpose in summoning Republican Senators was not to obtain their political approval, but to ascertain whether there was anything in the personal character of the appointees to which the people of the state might take objection.

Seven Republicans were consulted today about appointments—Warren and Clark of Wyoming, Penrose and Oliver of Pennsylvania, Cummins and Kenyon of Iowa and Bradley of Kentucky.

### WHAT THE RAILROADS DO

(Leslie's)

It seems very strange to see the passenger trains run in and out of the station to order the freight car and send the grain to market; to telegraph to the nearest large town for supplies, and in twenty four or forty eight hours have them delivered. But it is not so easy and simple as it seems, and there is danger today that the next great uplift in business in the United States will find the railroads, as a whole, surely taxed to furnish the transportation needed for the commerce of the country. Why? Because a misdirected public opinion is demanding rates too low, taxes too high, wages too high, service too elaborate, and there are not cents enough in the dollars to meet all these obligations and still permit the business to be attractive enough so the man with the dollar will invest it. Our American railroads have done good work, and can do better, and it is to the farmers' selfish interest to see that they are so treated that they will be ready at all times to handle business. To be ready requires constant expenditure.

Any time you want to take a drive just telephone 3, and Hilap will do the rest.

Never Tried It Before?—You'll Marvel  
How It Makes Corns Vanish.

There never was anything like  
"GETS-IT" for corns, and there isn't  
anything like it now. It is the corn

corn in two seconds; it stops  
the corn before it started an-  
tisiphours. It never fails. Simples-  
tly what you ever saw. No fussy hand  
sages, no greasy salves to turn health  
ash "peely" and raw, no plasters that  
make corns bulge out. Your corn  
can't pull and hurt 'way up to your  
heart. Lay aside your knife and razor  
and more digging and tugging and  
pinching, no more bleeding, no more  
dripping of blood poison. "GITS-IT"  
is your corn's healthy dress; it is safe,  
wholesome, quick, simple, sure. Pa-  
tient, calluses and bunions, too.

"GITS-IT" is sold at all druggists  
for 25 cents a bottle, or sent on receipt  
of price by E. Lawrence & Co., Chicago.  
Sold in Portsmouth by Tilton Drug Co.,

the wool schedule when the discussion was resumed. Earlier, the Committee on Ways and Means majority held a meeting to consider the protests of foreign countries against certain provisions of the administrative features of the bill, communications forwarded to Chairman Underwood by Secretary Bryan. Republican members of the House were busy today preparing for further discussion of the tariff bill at a caucus tonight. Only amendments to various sections of the bill had been prepared and will be offered in tonight's caucus. Substitute sections are being prepared by Republicans of the Ways and Means Committee to be offered in the House in place of the Underwood bill schedules on wool and cotton.

THE NEW CUNARD  
LINER "AQUITANIA"

The "Aquitania," to be launched on Monday, April 21, from the yard of the Builders, Messrs. John Brown & Co., Ltd., Clydebank, combines, in her design and construction, the experienced and invaluable information deduced from the construction and performance of the Lusitania and Mauretania, and many other famous ships that have preceded her under the Cunard flag. The succeeding vessel built for the company during the seventy-three years of its existence has in one way or another marked an advance on its immediate predecessor.

feet, depth from keel to main deck 12 feet; length, 100 feet; beam, 26 feet 6 inches; gross tonnage, 47,000 tons; speed, 23 knots; accommodation for 3,250 passengers and a crew of 1,000.

The unprecedented weight, length and other abnormal features of the ship involved the consideration of unusual conditions, and, like everything else connected with the construction, demanded arrangements being made on a scale of magnitude never before required on the Clyde.

In order to lay down the Leviathan, the whole face of Italy had to be advanced. The ground on which the ship was to be built had to be specially prepared and strengthened, piled and cross-piled. Over the cross piles were laid layers of steel plates, then quantities of cement, it being essential that the ground should not yield an inch at any point.

New crane systems had to be invented for lifting the heavier materials to the wider, longer ship.

The same berth was used as that which the Leviathan was built at, and the same machinery of the crane was found in a trunk near the water's edge. Charlton was located almost immediately on a ship bound to America and was arrested at Hoboken, N. J. An alleged confession described how he had struck the woman or the head in a quarrel and killed her.

Charlton's father, Paul Charlton, until recently United States judge in Porto Rico has fought unremittingly to prevent his son being taken back to Italy for trial. Two grounds are advanced for this position.

One is that Italy has refused to return Italian subjects to America to answer charges of crime under the treaty of 1868 and, therefore the United States cannot be called upon to return to Italy American citizens similarly accused.

The other defense is that Charlton was insane at the time of the offense and at the time of the extradition hearing, and that the New Jersey courts improperly declined to admit evidence to support that contention.

## DANIELS DEAD SET ON HAZING

The berth being in line with the pier Cart, which flows into the Clyde most opposite the yard, enabled the officers in launching the ship to avail themselves of this natural advantage.

The new ground was prepared as it is for the Lusitania. The part or which the earlier ship structure had required, of course, comparatively little treatment beneath its surface. The blocks were then put down in keel hold, and the frames erected in addition to the preparations for the river had to be deepened and widened, and the builders' fittings abain at Clydebank has also had to be dredged in order to accommodate the liner during completion.

An important feature in the Aquitania, is that extending throughout the ship's vulnerable parts, there is that desideratum, a ship: within a ship. In other words, there are two hulls, the inner as well as the outer hull, both being watertight.

The passenger accommodation will be provided on a scale commensurate with the great size of the ship. The first-class public rooms will include: drawing room, hall and galleries, smoking room on "A" deck; saloon, restaurant, grill room, dining room on "D" deck. There will also be a gymnasium and swimming bath. The second class public rooms include: Drawing room, lounge, smoking room, dining saloon.

The public rooms and promenade decks (both open and covered) allotted

Washington, April 17.—With the announcement today of his approval of the sentence of the court which dismissed Midshipman James C. Cook from the Naval Academy for hazing, Sec. Daniels sent a letter to every midshipman at Annapolis, warning him that hereafter, no leniency will be shown hazers, who, in addition, to being dismissed, will receive the additional penalty of imprisonment, as provided by law.

"The sentence of confinement would be justified in Cook's case," said Sec. Daniels, "but as I have not had an opportunity to issue a warning before, I have let the sentence stand at dismissal. Your hazing is essentially a bully and must necessarily have a streak of innate cruelty. The United States navy has no place for youths of this kind."

"I take this opportunity of saying that this senseless and dangerous practice will not be tolerated at an educational institution founded and supported by the Government. Future manifestations of such character at the Naval Academy will meet rigorous action."

The victim of Midshipman Cook's hazing was Midshipman Newbold Lodge of Michigan, who was made to stand on his head and do other

Washington, April 17.—In accordance with the policy of requiring naval officers of every rank to serve an adequate amount of sea duty in every grade, Mr. Josephus Daniels, the Secretary of the Navy, intends to abolish the "soft snaps" on land and to send as many officers to sea as he can without interfering with the shore work of the navy. This action is made necessary by the shortage of officers to man the vessels in commission. The battleship New Jersey, now at Boston is without a sufficient number of officers, and the Bureau of Navigation is searching for available officers on land duty who can be assigned to her.

The shortage in officers is caused by the unusual activity of naval vessels. A number of battleships and cruisers are on duty in Mexican and Central American waters. In addition, the armored cruisers Montana and Tennessee were sent to the Mediterranean last fall. The officers for these two were taken from the battleships New Jersey and Nebraska and the vessels of the reserve fleet at Philadelphia. Only recently five vessels of the reserve fleet were placed on ordinary to provide officers and men for other vessels. The reserve fleet has been practically drained of all available officers and men. The result of the existing shortage will be to send to sea officers whose tours of land duty are about to expire.

Mr. Daniels will be forced to draw on practically every navy yard and station for officers. It is likely that the number of officers on duty at the Naval Academy (about ninety) will be considerably reduced. About twenty of them, it is expected, will be sent to sea at the end of the present school year, and their places will not be filled. Mr. Daniel's recent order requiring sea duty in every grade as a requisite for promotion will add to the shortage of officers available for sea service. Naval officers who will come up for promotion soon and who have not a sufficient amount of sea service will probably accept of sea duty at their own accord.

### NAVY TELLS WHY 'STARBOARD' AND 'PORT' ARE TO GO.

Washington—In a statement explaining the order of Secretary Daniels of the navy department abolishing the designations "starboard" and "port" and replacing them with "right" and "left" the naval general board says:

"It is thought if a search is made for terms that will indicate exactly what is to be done and that are familiar from childhood in all that may become steamship, more appropriate

"Ships right" and "column left" and similar terms are constantly employed, "Wheel right" or "wheel left," or simply the order "right" or "left" is a direction to the man at the wheel which can be instantly and accurately executed. These orders also accord with the motion of the arm and hand when used in counting ships."

The assistant secretary of the navy Franklin D. Roosevelt, who is said to have a most complete library on naval affairs, balked at signing the order. One veteran of the general board stood out to the last, but was outvoted eight to one, and Secretary Daniels signed the order on Wednesday. Mr. Daniels had no prejudice in favor of the discarded terms.

will be white shoes.

## Don't Take Kindly to This

One of the features of the civil ser-  
vice for workmen on the eligible list,  
and one which they do not take kindly  
to is that the name of every man  
on the list is dropped by the labor  
board and must appear for the com-  
ing examinations to get a standing.  
By this ruling 2000 names are wiped  
out at Boston yard, and about 500  
here.

## We Ought To Win

The bids for the construction of  
a torpedo destroyer tender were for-  
warded to the navy department on  
Thursday, to be opened at Washing-  
ton on Monday next. It is safe to say  
that this is the best bid for such  
work that this yard has so far submit-  
ted to the department. The fact that  
the old shipways were considered in

this bid makes it fifty per cent bet-  
ter than any previous effort on the  
part of yard officials and civilian  
employees to furnish figures for ship-  
building.

## No Work Tomorrow

The yard will be closed to all work  
tomorrow on account of Patriot's  
Day in Maine. Several workmen
